PROFESSIONAL SUMMARY

- 3D Artist with 4+ years of experience specializing in stylized, hand-painted game assets for mobile. Skilled in modeling, UVs, texturing, and retopology.

SKILLS

- **Stylized Texturing:** Custom and modified textures for characters and skins
- **Model Optimization:** Models built within strict tri-count budgets
- **Concept Art Interpretation:** Turning 2D concepts into 3D models

EXPERIENCE

MODMA STUDIOS

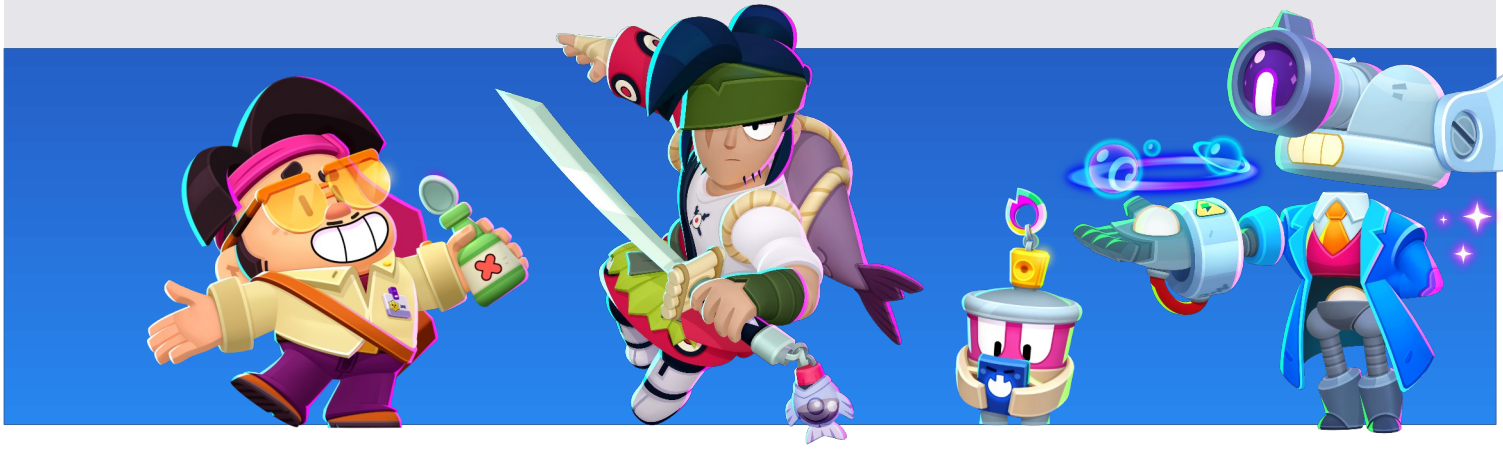

3D Artist (Mid-level)
February 2024 - Present

PROJECTS

BRAWL STARS

Created 4 Brawlers and 47+ skins for Brawl Stars, working under art leads and directly from client concept art

- Modeled optimized assets within 6k-28k tris budgets without losing silhouette or character appeal
- Kept consistent texel density across assets for clean, uniform texture quality
- Took art direction and client feedback through multiple revision rounds to deliver production-ready assets

PERSONAL QUALITIES

- Motivated, creative, and detail-oriented with strong problem-solving skills.
- Quick learner with the ability to adapt to new concepts efficiently
- Reliable and trustworthy, with a strong work ethic

EDUCATION

- **HSC | Class XII** 2017-2018
  St. Xavier's High School, Vile Parle

APPRECIATION

- One of my Art appreciated by Imangi Studio click this Golden idol to see

EXPERIENCE

WAYU

3D Artist
January 2022 - August 2023

- Created high-quality 3D models for mobile games and NFT projects
- Collaborated with cross-functional teams to ensure timely project completion and maintain consistent artistic vision
- R&D with new 3D modeling and texturing techniques, resulting in a streamlined workflow, and improved asset quality

PROJECTS

Ram Setu: The Run: Developed optimized stylized assets for the mobile game, focusing on environmental elements and character props. Lit scenes for marketing posters, contributing to a cohesive visual campaign.

FAU-G Mobile: Created optimized building and prop assets for the mobile game, ensuring efficient use of resources and seamless integration into the game engine

fRiENDSiES: Crafted 50+ NFT characters with unique textures, contributing to the visual diversity and appeal of the project

ICC Cricket Mobile: Remodeled existing stadium assets, incorporated new models, and created an atlas map, enhancing the visual realism and immersion of the game.
